Краткое описание фабрики:

Cixi Changhe Instrument Enclosures Factory (hereinafter referred to as "the Factory") is a privately-run enterprise specialized in the manufacturing of enclosures and electronics cases.

The Factory's products are widely used in such fields as electronics, instruments, meters, sensors, automation, industrial control and communication IC cards. As one of China's enterprises that manufacture the fullest line of enclosures, the Factory currently manufacture 38 types of enclosures with nearly 3,000 specifications.

The Factory has committed itself to the R&D of new enclosure products for a long term and has achieved phased achievements in the standardization, specialization and serialization of enclosures.

The Factory will continuously launch a series of value-added services including shape design, structural design, precision mould design, electromagnetic compatibility design, electronic product safety design and thermal design. Relying on high quality and good faith, the Factory will try to make "Changhe Enclosure" a famous brand in the domestic field of enclosures.
